Soca, Waaba, Tuka and Maco discuss
digital safety skills.

Mobile phones, tablets, and smart watches are all digital devices. Follow the traffic light rule and use these devices more safely.

GREEN means safe and fun things that you are allowed to enjoy alone or with friends!

RED means something that feels scary, strange, or is not allowed. Take a screenshot of it and show it to a safe adult.

YELLOW means something new. Ask an adult before you get a new game, reply to a message, or click a link.

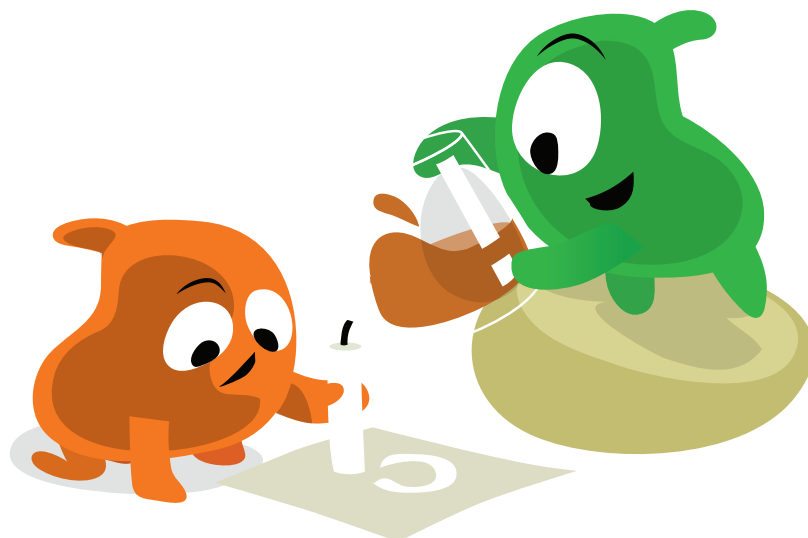

Always talk to an adult if you're not sure what to do online or if something feels odd.

Let's help the Kip Crew!

Before we begin, take a moment to think about all the fun, “green” things you do or would like to do on digital devices.

Draw a picture of them on this page! You could draw your favorite game, a fun show you watch, messaging with a friend, or anything else you enjoy doing on a digital device!

Maco draws a cool picture and posts it online.

This is my best drawing yet!

Maco shows the drawing to Tuka on his phone. Suddenly, he notices a message he received online. The message says:

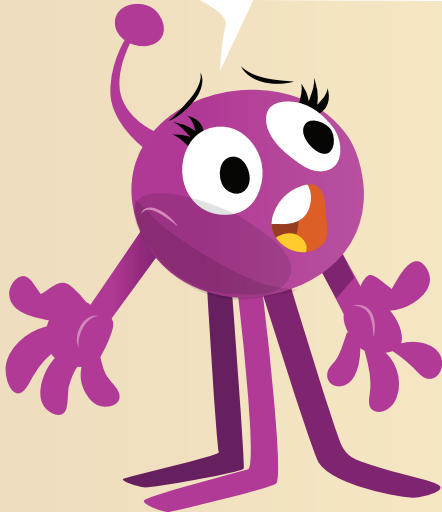

Hi! I like your picture. Can we talk sometime?

The message looks nice... but something feels strange.

Tuka notices the message and warns Maco.

You don't know who the message is from. Let's take a screenshot and show it to an adult.

Thanks for your tip, Tuka!

Waaba and Soca are nearby and overhear their friends talking.

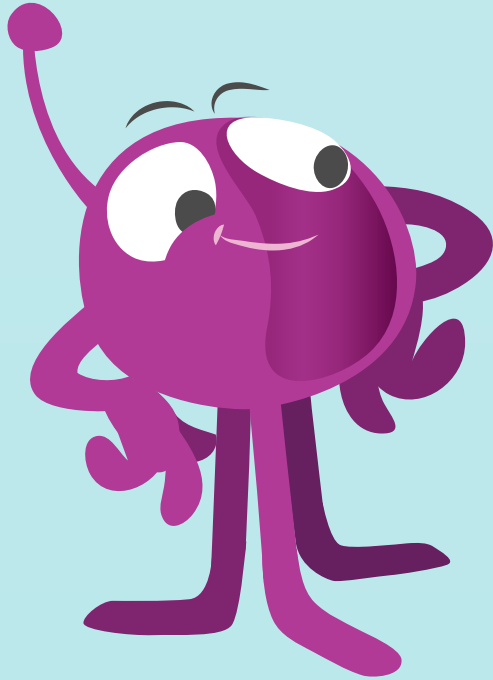

Well done! It is important to tell an adult!

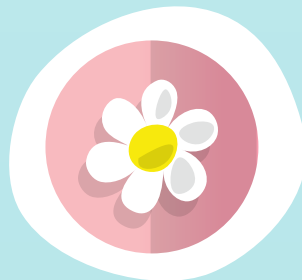

Remember that not everything online is what it seems.

KIP CREW'S TIPS FOR ONLINE SAFETY

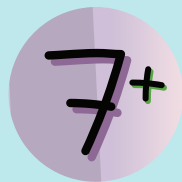

If Tuka receives a message from an online friend, she shows it to a safe adult.

Soca uses a picture of a flower as his profile picture in an online game. Then others won't know by looking at the picture whether Soca is an adult or a child. This helps Soca stay safe online.

Waaba follows the age limits. She knows they help protect children!

Maco guides the other members of the Kip Crew:

I like to take breaks from my phone by putting it in my family's phone parking lot. Then I go outside to play with my friends.

MATCH THE ONLINE SITUATION BELOW WITH THE COLOR OF THE TRAFFIC LIGHT

I write a message to a friend

I listen to music on my headphones

I make a video call to my cousin

I get a message with strange pictures or videos

Someone asks me to keep a secret

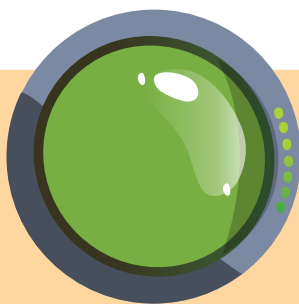

I get a scary message

I send a picture of myself to someone I met online

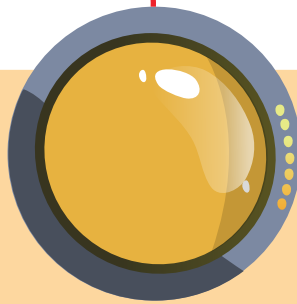

I download a new game

I see a video with scary things or naked people

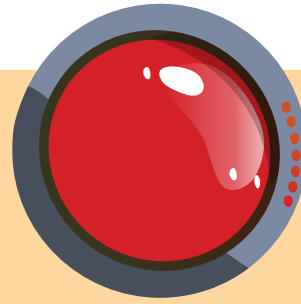

I search for picture of horses online

SOMETHING THAT I CAN ENJOY

SOMETHING THAT I NEED TO TALK ABOUT WITH A SAFE ADULT

SOMETHING THAT MAY FEEL SCARY, ODD OR FORBIDDEN

I will take a screenshot of it and show it to a safe adult

LET'S PLAY WITH THE KIP CREW!

Draw an "online map" on the next blank page! Your map can have places like the Game Area, Chat, Picture Library and Video Cave, as well as the Phone Parking Lot, where you can leave your digital devices for a break. You can come up with more online spaces yourself. Cut out the Kip Crew characters on page 10 and place them on the "online map" you have drawn. Move the characters and imagine what they could see or do in different areas of the "online map".

What should the Kip Crew do if they receive a message from someone they don't know? What to do if their real name is asked online? Talk to the Kip Crew about how they can stay safe online. Remind the Kip Crew that they can always talk to a safe adult if they are not sure what to do.

The Kip Crew wishes all children safe play and learning on digital devices!

**DRAW YOUR MAP
HERE!**

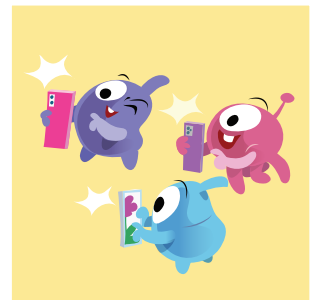

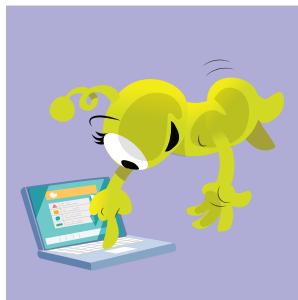

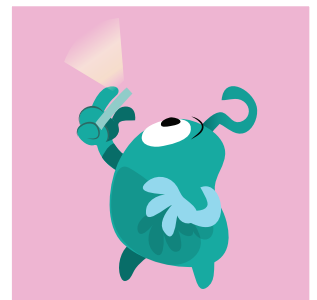

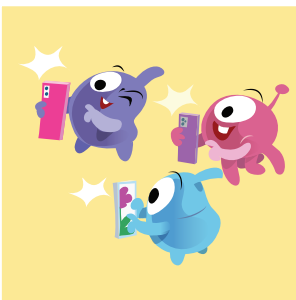

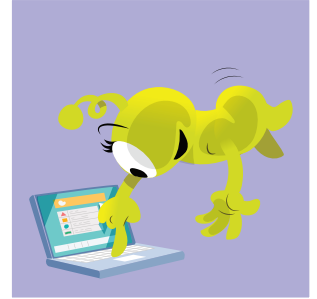

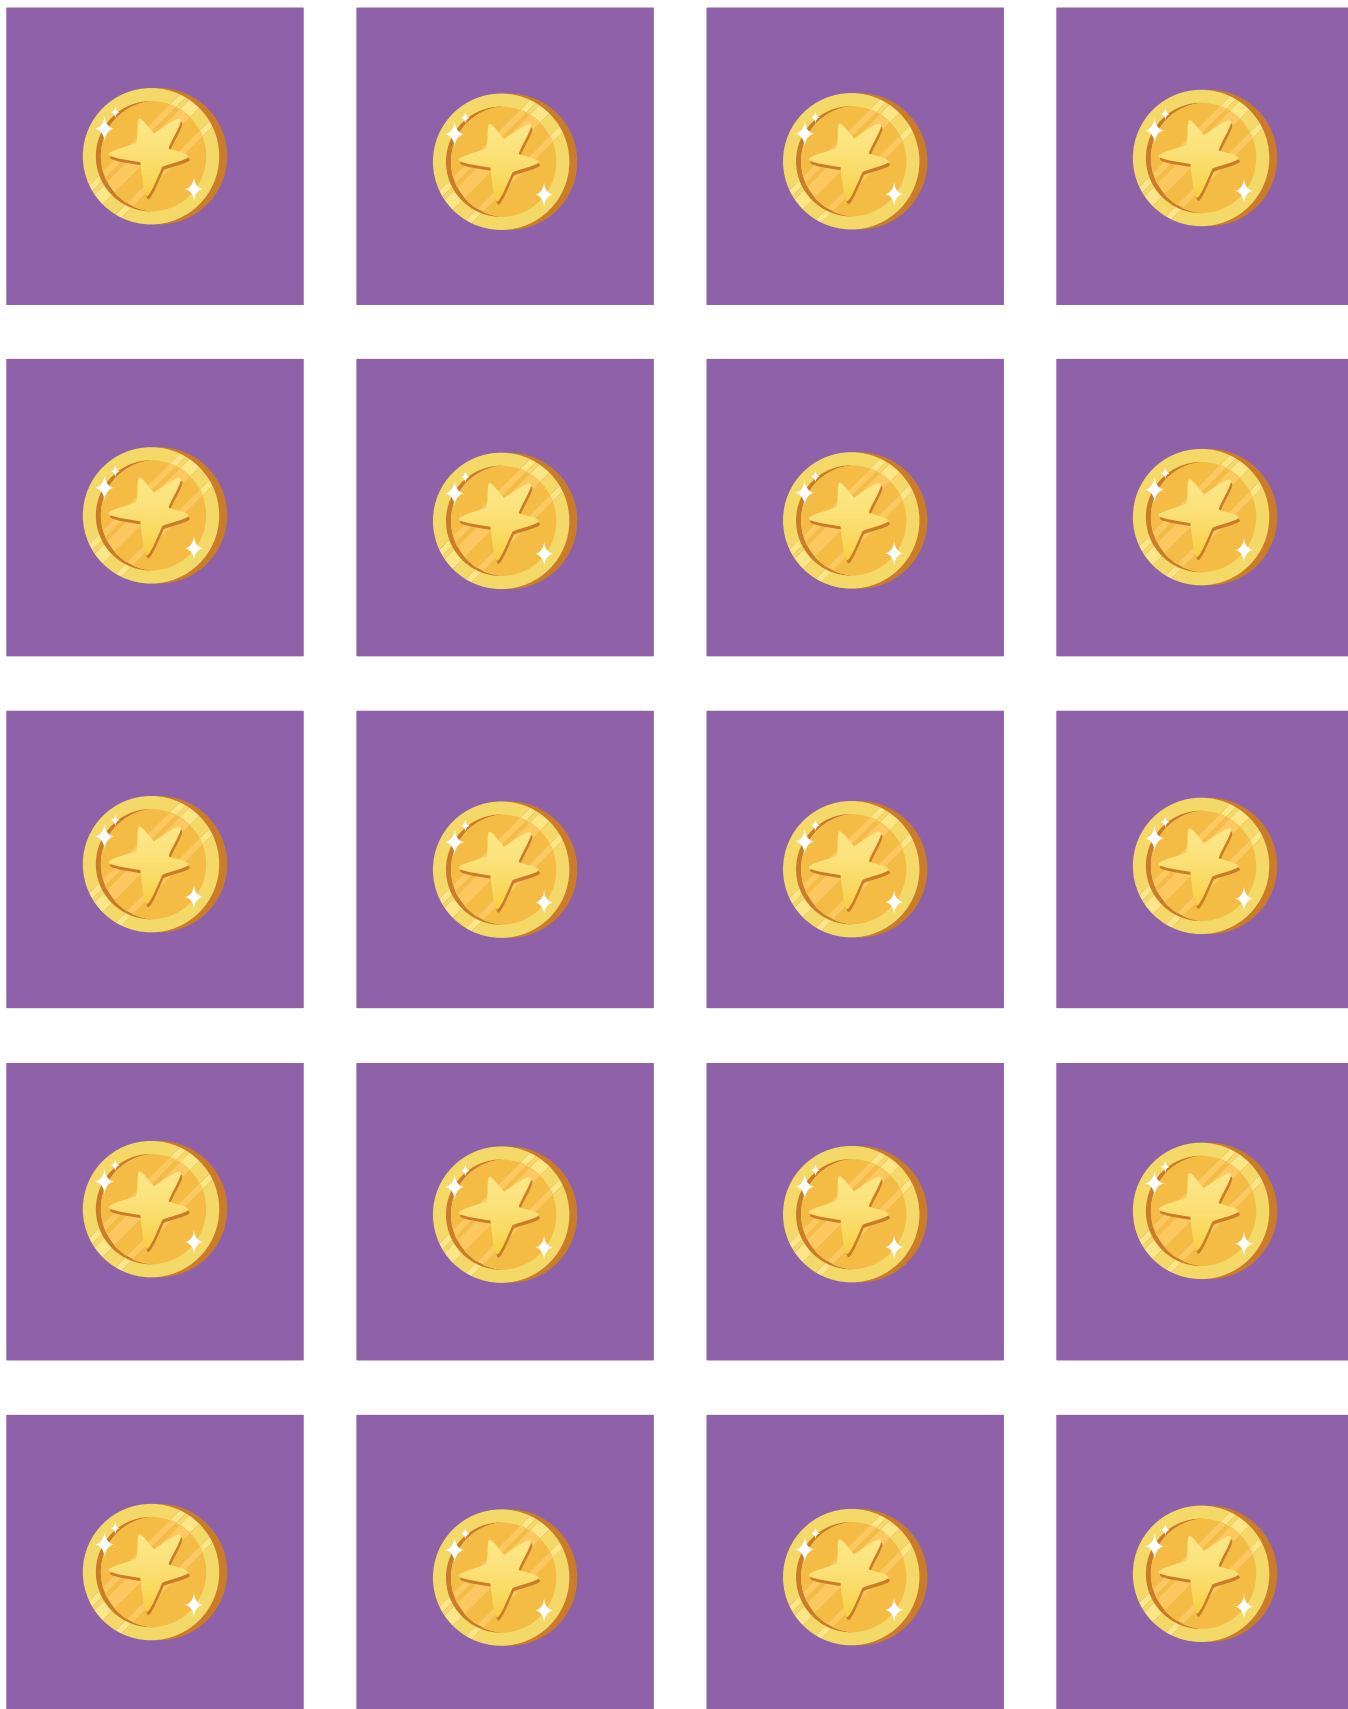

MEMORY GAME

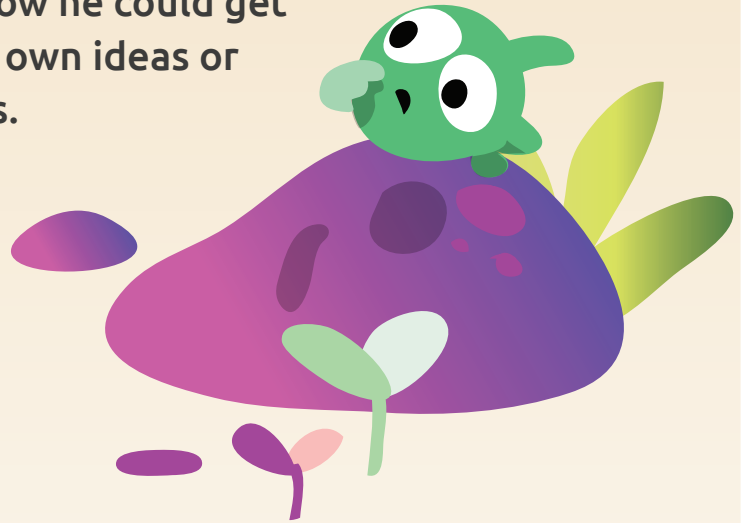

Cut out the cards and place them face down. Flip two at a time to find matching pictures!

YOUR HELP IS NEEDED!

This little creature is sad because he saw something upsetting online. None of his trusted friends or adults know about it. The creature doesn't know what to do. Draw or write how you could comfort the little one or how he could get help. You can come up with your own ideas or choose one of the Kip crew's tips.

This workbook is suitable for ages 5–9. It can be read alone or with an adult. The story and tasks give the child the opportunity to reflect on digital safety skills. The adult listens to the child and can help with any questions or concerns related to the topic. It is important for the child to learn in advance how to act in different situations in everyday digital life. It is also important that children know what to do if they encounter difficult situations or unpleasant things online. Every child deserves care and support from safe adults, also in digital environments.
